

SIDING: WHAT TO EXPECT

CUSTOMER NAME _____

CUSTOMER ID _____

CUSTOMER ADDRESS _____

CITY, STATE, ZIP _____

- The day before or the day of installation the siding may arrive on pallets. The materials will take up the space of a car. Please let us know if there is a particular side of the driveway or any other place you want the materials delivered.
- Expect installation to start at daylight. If this does not work for you, please let us know a more suitable time.
- We will protect your property with tarps to cover shrubs, decks, and delicate flowers. If there are additional areas to which you would like us to pay special attention, please let us know ahead of time. We will do our best to minimize damage to landscaping but some damage may occur for which we are not responsible.
- Expect pictures of the installation process to be sent to your mobile phone throughout the installation or at the end of the installation.
- You will be notified immediately if any additional work has been discovered that will change your original quote amount.
- Ensure all vehicles, grills, lawn furniture, and other items are moved away from the work areas on the morning of the project. If necessary, remove any vehicles from the garage before the team arrives.
- We will need access to electrical sockets for our equipment.
- Be aware that vibrations may impact the interior of your home, especially walls, cathedral ceilings, and shelves or pictures mounted near or on walls and ceilings. Remove all pictures and fragile items from shelves on exterior walls.
- We will do everything we can do to prevent this from happening, but some nail pops or other drywall/plaster damage may occur for which we are not responsible. If you have a cathedral ceiling, please advise the job superintendent the morning of installation.
- Low voltage wiring, exterior lighting, cable/satellite lines, internet cables, telecommunications lines both hidden and exposed may be affected. An electrician or service provider may be needed to remove such services/outlets/boxes to allow for proper flashing installation. Any additional costs are the homeowner's responsibility. We are not responsible for providing such services. We do our best to carefully remove those for your siding installation and we are not responsible for any damage that may occur in the event that an electrician/service provider is not consulted.
- Ensure the siding you have selected is approved by your Homeowners Association, if applicable.
- Plan to inspect your siding with the job supervisor upon completion of the project. This provides an opportunity to ask questions and address any concerns while the crew is still on site.
- Payment is due in full upon completion of each trade performed.
- All credit card payments will be assessed a technology fee.
